

PACKAGE

REQUIREMENTS:

Each player must have a name, player ID, gender, date of birth, phone number and the category of the bow used. Every player must have only one ID and only one unique ID must be assigned to one player. Each player can practice either quantitatively or qualitatively (based on number of arrows). Any player can play any number of matches. Every match the player attends can be uniquely identified based on the match name and the player ID. One player will be assigned only one training protocol. Every player must have a separate fitness test. A record has to be maintained for the coach if the player modifies or inserts the practice Data.
